TOP 5 ACTIONS TO CLOSE THE 2025 vs 2026 GAP

#1	Stop Caitlyn & review Oleg drafts	TODAY	Caitlyn: 70.6% go-back. Oleg: quadrupled. Together they account for the majority of the 581 extra go-backs in 2026.
----	-----------------------------------	-------	---

#2	Investigate Byron, Rc, Choppa, Tejada crews	THIS WEEK	These 4 crews went from under 12% to 35-51% go-back. Something specific changed. Find it.
#3	Celebrate Johnv, Joseph, Anthonya	THIS WEEK	These crews improved or held their excellence. Share their habits with struggling crews.
#4	Make survey_coordinator required field	THIS MONTH	Only 3% of orders have coordinator data. Without it, coordinator accountability is impossible.
#5	Monthly go-back review meeting	ONGOING	Share crew go-back rates with ALL crews monthly. Visibility drives accountability.
