IF YOU DO ONLY 3 THINGS FROM THIS ENTIRE REPORT:

1

Fix the access call problem

6,335 unsettled access calls. This is the single biggest cause of ALL delays. Nothing flows until access is settled.

2

Retrain the high go-back crews

Diego, Choppa, Rc, and Byron alone account for 187 wasted go-back trips. That is lost money every single week.

3

Set the 24-hour field upload rule

Surveys sit 6+ days after fieldwork before entering drafting. Fix this one rule and delivery times drop significantly.
